

April 9, 2010
President Elect
Annual Report
Minot, ND

Greetings to all,

Thank you for electing me President elect for 2009-2010. I have enjoyed learning from the other board members about the NDSRT this past year. We have had a productive year.

Our first meeting was held after the conference in Fargo, April 2009. Our 2009-2010 goals were to increase membership, update our NDSRT website, choose a Lester Shook speaker for the 2010 conference, and meet quarterly. We decided to use teleconferencing for our next board meeting. Teleconferencing uses technology for communicating with other board members across the state without having to travel.

The second meeting was held via teleconference in June. The teleconference meeting was successful. Amy Hofmann shared her knowledge from attending the ASRT delegate meeting in Albuquerque, New Mexico. We discussed possible Lester Shook speaker candidates, budgets, and the 2010 conference.

I was unable to attend the September 2009 meeting. I reported that the ACR conference which was to be held in Fargo was cancelled.

The February board meeting was held via teleconference. We discussed the confirmation of the Lester Shook speaker, Brent Colby, physicist. The board suggested we speak with our local districts about dissolving or combining districts. There has been reduced attendance in many of the districts throughout the state.

We discussed attendance to RT in DC and decided Amy Hofmann and Ann Bell-Pfeifer would attend together to represent the NDSRT constituents.

I am looking forward to attending the 2010 annual conference in Minot. The conference schedule has a great list of speakers and current topics. The 2010-2011 year will bring new leaders into the NDSRT. I am honored to be serving you as the NDSRT 2010-2011 president. My challenge to you, is to consider becoming a leader of the NDSRT, be more involved in your local chapter, and support your professional organization.

Respectfully submitted,

Ann Bell-Pfeifer BS, RT R M QM
President Elect
